---> Comment Text :

1 I am strongly opposed to the proposal for a Geologic Repository for the Disposal of Spent Nuclear Fuel and High-Level Radioactive Waste at Yucca Mountain in Nye County, Nevada.

Water flows beneath Yucca Mountain, so there is a real danger that this water could infiltrate the waste containers, corrode them and carry radioactive waste into the groundwater. In addition, this area is earthquake prone, making it very unfavorable for radioactive waste disposal.

Please accept this as my official public comment.
